

MODEL C85I (2532FFUC) TANKLESS WATER HEATER

THE RINNAI ADVANTAGE

- Endless Hot Water Delivered up to 8.5 GPM
- Digital Control for Consistent Temperature
- Energy Efficient up to .84 EF (Propane)
- Wall-Mount Compact Design for Increased Space-Savings
- Internal or External Installations with Discrete Vent Terminal

Rinnai's innovative tankless technology offers an endless supply of hot water through multiple outlets simultaneously. No matter what your hot water requirements are, the Rinnai can be configured to handle the job. Call or E-mail us with your application.

MODEL C85i (2532FFUC)

FEATURES

- Internal Installation
- No Pilot Light - Direct Electronic Ignition
- Uses either Natural Gas or Propane
- Certified to ANSI Z21.10.3 Standard by CSA International (formerly AGA Laboratories)
- Hot Water Capacity - 8.5 GPM (multiple points of use)
- 9" Depth, 14" Width, 24" Height
- Digital Display
- 98 to 185°F Settings
- Diagnostic Display

CABINET

- Heavy Gauge, Textured, Gray Powder Coated Cabinet

VENTING

- Internal - Direct Vent

WARRANTY

- Exceptional 5-Year Limited Warranty On The Heat Exchanger
- 5-Year Limited Warranty On All Other Parts

Type of Appliance:	Temperature Controlled Continuous Flow Gas Hot Water Heater
Operation:	With or Without Controls
Exhaust System:	Direct Vent - Forced Combustion
Min./Max. Gas Input:	15,000 BTU/H 180,000 BTU
Dimensions: (Fully Modulating)	Height 23 ⁵ / ₈ " Width 13 ²⁵ / ₃₂ " Depth 8 ¹³ / ₁₆ "
Gas Type:	Natural or Propane
Weight:	49 lbs
Efficiency:	up to 84% NG / up to 89% LP
Connections:	Gas Supply ³ / ₄ " MNPT Cold Water Inlet ³ / ₄ " MNPT Hot Water Outlet ³ / ₄ " MNPT

Rinnai is continually updating and improving products; therefore, specifications are subject to change without prior notice. Local, state, provincial and federal codes must be adhered to prior to installation.

Atlanta Braves and Turner Field Hit a Home Run With Rinnai

MODEL C85I (2532FFUC) TANKLESS WATER HEATER

More than two million fans visit Turner Field each year to cheer on the Atlanta Braves. And, one of the stadium's most popular eateries is Skip & Pete's Hall of Fame BBQ. This BBQ palace is named for two legendary members of the Atlanta Braves broadcast team, Skip Caray and Pete Van Wieren. Skip and Pete have been broadcasting Braves games since 1976 and have been witness to the Braves' historic run of 14 consecutive division championships.

When it came time for Turner Field to update and modernize the hot water heating systems for Skip & Pete's, they benched their worn-out water tank and called on the Official Water Heater of the Atlanta Braves, Rinnai tankless water heaters.

Why Rinnai?

Turner Field was looking for a more energy efficient and space-saving alternative to their 200-gallon water tank and 650,000-BTU water heating unit.

Over the course of five days, Rinnai worked with Shumate Plumbing to take out the existing water heating system, install three Rinnai model C85i (2532FFUC) tankless water heating units on an interior wall of the building and vent the units through the roof of the building. The venting was painted to match

the exterior of the building for an aesthetically appealing finish.

Return on Investment

Skip & Pete's gained valuable storage space by removing the existing water heating system and is reaping the energy savings of only paying to heat water when it is needed, unlike their existing water tank system which constantly heated water, whether it was being used or not.

PROJECT SUMMARY

- Replacement of 200-gallon tank and a 650,000-BTU water heating unit with three Rinnai tankless water heaters (Model C85i/2532FFUC).
- Tankless conversion provides both space-savings and energy-savings. With Rinnai, Skip and Pete's reclaimed over 40 square feet of valuable restaurant space.

Skip & Pete's Rinnai installation resulted in reclaiming about 40 square feet of floor space after removal of a 200-gallon water tank and a 650,000-BTU boiler.
